

# COMFORT DESIGNED TO RESPECT THE ENVIRONMENT

Leaf is the seat that improves your day. Breathable and ergonomic, Leaf ensures comfort, reducing fatigue. A product characterised by innovative colours and materials, that easily adapts to any functional and aesthetic need: always respecting the environment.

# THE AESTHETICS OF COMFORT

Leaf is conceived as functional and aesthetically pleasant chair. The back in polyamide is characterised by an elegant leaf pattern, embossed on the back. The back upholstery instead, consists of a particular technical padding made in fabric combined to a highly-elastic expanded elastomer, perfectly adherent to the user, ensuring comfort. The back technical padding is characterised by three different geometric patterns obtained through thermo-moulding. The air chamber created between the back structure and padding confers instead optimal breathability.

# TAILOR-MADE TO YOUR NEEDS

Leaf features a lumbar support adjustable in height and depth. A spring system allows in fact to adapt the seat to the support needs of its user. The lumbar support ensures proper support at the base of the spine, reducing fatigue due to extended sitting times.

# THE MECHANICS OF COMFORT

Leaf features a synchro mechanism that regulates the seat and back angle, locking it in 5 positions with anti-shock system. The tilt tension can be adjusted by a practical side handle, according to the user's weight.

# ASSISTED **MOVEMENTS**

Leaf seat moves in tune with its user. Adjustable in depth and lockable in the desired position, Leaf seat follows the user's movements in the "free" option activated with the second locking position of the adjusting lever.

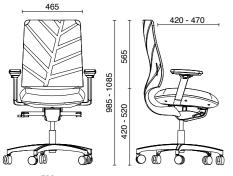

# COMFORTABLE

Leaf comfort is also guaranteed by the wide and thick seat (75mm) with pad in flexible polyurethane. The side stitching of the upholstery enhance the seat silhouette.

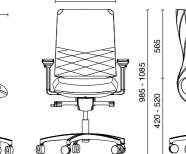

# FREEDOM TO CHOOSE

Different types of armrests, bases and casters offer the possibility to choose the most suitable version for your needs.

# MODELS AND DIMENSIONS

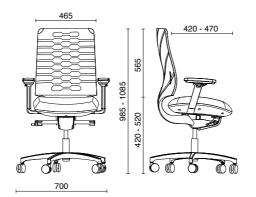

Operative with an elegant LEAF pattern embossed

700

Operative with a "DIAMOND-SHAPE" pattern in the lower part

420 - 470

## PCON.PLANNER

It is possible to configurate our model Leaf by using pCon.planner program for the design of 2D an 3D environment.

pCon.planner allows to design working solutions in a fast and intuitive way, creating "realistic" images with advanced features, with a considerable saving of time and resources.

It is easy to start using pCon.planner: after downloading the software in the proper page, it is possible to download pCon.catalog, the practical online catalogue of products ready to be set up according to anyone's need, and then include the products in the projects.

For more information on the use of pCon. planner and the access to the products of the SitLand's catalogues, please contact com@sitland.com

# D.Lgs. 81/2008

Leaf comply with the italian norm D.Lgs. 81/2008.

GREENGUARD

PRODUCT CERTIFIED FOR LOW CHEMICAL EMISSIONS UL COM/CG UL 2818

Spirit Air has achieved GREENGUARD Certification.

GREENGUARD e GREENGUARD Gold are products' certifications released after accurate laboratory tests which assure a low level of chemical emissions of the GREENGUARD tested products in the inner environments. As a matter of fact. in the inner environments, the air is 2 - 5 times more polluted than on the outside and the pollutants comes from products and materials that we use every day. Therefore, the quality of air in the inner spaces is an important issue when people pass the most part of their time in inner environments.

The products certified GREENGUARD ensure a low level of chemical emissions, therefore a better quality of air in those places where they are used. Those chairs which obtained the GREENGUARD Gold certification grant the total absence of chemical emissions, then they are the safest choice for public spaces like schools and healthcare setting. The products certified GREENGUARD contribute to create Leed buildings.

For more information on GREENGUARD, visit the official web site ul.com/gg.
